POETRY PICK

THE MAGICAL SKY

THE SUN WAKES UP, A SLEEPY ONE, ★
PAINTS THE CLOUDS UP IN THE SKY, ☺
BIRDS BEGIN TO SING THEIR SONG, ★
AS THE BRAND NEW DAY ROLLS ON, ☺
GREEN GRASS GROWS, AND FLOWERS BLOOM,
CHASE AWAY ALL THE GLOOM. ★ ★ ★ ★ ★ ★
KIDS PLAY GAMES WITH JOYFUL SHOUT ☺
LEARNING WHAT THE WORLD'S ABOUT ★
FRIENDS ARE NEAR, A HAPPY TEAM, ★
LIVING OUT A WONDERFUL DREAM, ☺
WHEN THE DAY IS DONE, THE MOON SO HIGH ★
WINKS A SLEEPY LITTLE EYES ★ ★ ★ ★ ★ ★ ★ ★
STARS SHINE BRIGHT, AND A PLEASANT
NIGHT

Poem!

WHIMSY WORLD

बैतर कल की पहल

पापा, आज प्रदूषण हमारे देश की बहुत बड़ी समस्या बन चुकी है। क्या विकसित देशों ने यह समस्या नहीं झेली?

नहीं बेटा। बहुत से देशों में यह समस्या रही है और उन्होंने प्रयासों से इसे हल भी किया।

कैसे पापा?

सौर ऊर्जा और पवन ऊर्जा का उपयोग ज्यादा से ज्यादा करके। कार और मोटर साइकिल का उपयोग कम करके। साइकिल और पब्लिक ट्रांसपोर्ट का उपयोग ज्यादा से ज्यादा करके।

यदि हम सब मिलकर ऊर्जा वचन के लिए प्रयास करें तो हम वर्तमान और आने वाली पीढ़ी को स्वस्थ और शुद्ध जीवन दे सकते हैं।

GRADE 1-CCA- BEST OUT OF WASTE COMPETITION

PRE PRIMARY - PARENT CHILD ACTIVITY

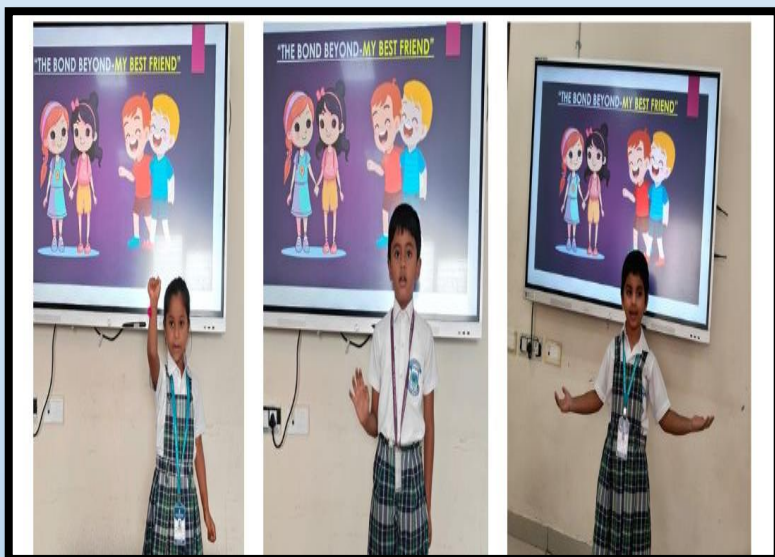

GRADE 1 - NO BAG DAY

PRE PRIMARY- "SAFETY FIRST IS SAFETY ALWAYS."

PRE PRIMARY CCA- TALK SHOW- "THE BOND BEYOND: MY BEST FRIEND"

CBSE CAPACITY BUILDING WORKSHOP ON ACTIVE LEARNING

DISCOVERY DOTS

STARS

1. Stars are giant balls of gas.

Stars are made mostly of hydrogen and helium, which create energy through a process called nuclear fusion.

This releases an incredible amount of light and heat, which is why stars shine so brightly and can be seen from trillions of miles away.

2. Our Sun is a star.

The Sun is the closest star to Earth, which is why it looks so much bigger and brighter than the stars we see at night.

It's about 93 million miles away and provides all the energy needed for life on Earth.

Without the Sun, our planet would be a frozen wasteland.

3. Stars are born in nurseries.

Stars are born in huge clouds of gas and dust called nebulae.

Over time, gravity pulls the gas together, squeezing it into a hot, dense ball.

When the core gets hot enough, nuclear fusion begins, and a star is born.

Some nebulae glow with beautiful colours and can be seen through powerful telescopes.

4. Stars have different colours.

Did you know stars come in a rainbow of colours?

A star's colour depends on its temperature. Blue stars are the hottest, burning at tens of thousands of degrees, while red stars are the coolest, but still incredibly hot.

Yellow stars, like our Sun, fall in the middle.

5. The biggest stars don't live long.

Massive stars burn through their fuel much faster than smaller ones, so their lifespans are shorter.

While a small star like a red dwarf can shine for tens of billions of years, a huge star might only last a few million years.

In the cosmic scale, that's just a blink of an eye!

INDEPENDENCE DAY

ACHIEVEMENTS

Our talented Vydehians have once again made us proud at the CBSE Zonal Yogasana II – Ballari 2025-26, showcasing strength, flexibility, and discipline.

On 28th August 2025, our talented shuttlers from Vydehi School of Excellence showcased grit, passion, and unbeatable skills at the RK Sports Interschool Badminton Tournament held at Bangalore Sports. From the youngest to the senior categories, our students proved that dedication and practice always pay off. With swift smashes and powerful rallies, they brought home trophies and medals across multiple age groups, making Vydehi proud!

Vydehi School of Excellence made a thunderous impact at the RK Sports Athletics Meet held on 31st July 2025 at Sri Channabyre Gowda Stadium, Hoskote. Our athletes sprinted, soared, and leaped their way to victory across multiple age categories, proudly bagging a stream of medals and showing the true Vydehian spirit!

We are beyond proud to share the phenomenal achievement of our young prodigy, Aadhya Suresh Kolsur from Grade 3, who has secured her place in the India Book of Records! This feat, officially recognised on July 5, 2025, also featured on the India News Channel and rightfully so! Her razor-sharp focus, memory power, and commitment left everyone in awe.

Volksfiesta 2025, hosted by Deens Academy, Gunjur, on August 22nd & 23rd, became a vibrant stage for creativity, intellect, and expression, where our Vydehians lit up the arena with their stellar performances and remarkable achievements in cultural and literary events!

On 27th July 2025, the Bengaluru 2nd All India Open Karate Championship was held at the Koramangala Indoor Stadium, where our young Vydehians showcased their strength, discipline, and unbeatable spirit. Competing against strong contenders from across India, they delivered stellar performances in Kata and Kumite, proudly bringing home medals!

our talented Vydehians showcased their creativity, confidence, and brilliance at "Dhanak", the interschool competition hosted by Delhi Public School. Competing across diverse events, our students not only bagged top positions but also lifted the Overall Championship Trophy!
