TALE OF THE MONTH

The Garden of Choices

Once upon a time, in a colourful garden tucked behind a quiet cottage, lived seven beautiful flowers. Each had a vibrant petal and a unique personality, and they were the pride of the garden. One sunny morning, the first flower stretched its petals and sighed. "I don't want to live in this garden anymore," it said gloomily. "Why not?" asked the seventh flower, surprised. "I'm tired of the same view everyday," replied the first. "Everything looks the same. The same bees, the same soil, the same sunshine!" The third flower chimed in, "I agree. And I don't want to drink the same water everyday either. What if there's more out there?" The second, fourth, fifth and sixth flowers nodded in agreement. "We deserve more!" said the fourth. "Maybe a prettier garden or a home of our own!" But the seventh flower stood tall and firm. "No, my friends," she said gently, "this garden may seem ordinary, but it's our home. The sun shines just for us, the gardener takes care of us with love, and we grow together. Why leave what we already have?" The fifth flower shook its stem. "I still think we should live with the boy who lives next door. He walks past us everyday, and he always smiles at us every day. I bet he would take better care of us." "But how would we get his attention?" asked the second flower, puzzled. The first flower had an idea. "Let's sway in the breeze whenever he walks by."

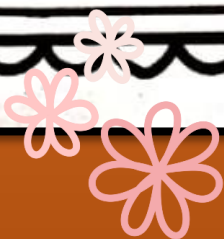

//

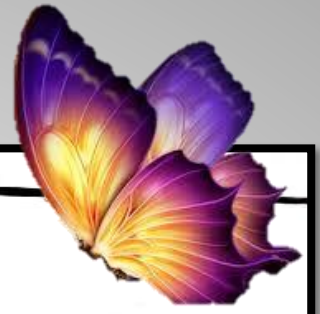

"We'll look so cheerful and lovely that he'll have to notice us!" The next day, just as the boy was returning from school, the flowers began to dance with the wind. They waved their petals, swayed their stems and sparkled in the sunlight. The boy spotted the flowers and smiled. "Wow! Look at those flowers! They are so pretty!" he said. He ran up to the gardener and asked "May I take some home with me?" The kind gardener chuckled. "Why not my child? Please take some with me, the ones you like the most. The boy carefully picked the first, second and third flower. At the boy's house, the flowers were amazed. The boy kept the 1st flower on top of a tall shelf, the second flower in a glass vase filled with clean water and the third flower on the dining table. It was the first time they had been apart. They couldn't stay together or talk freely like before. Days passed, and the boy gradually forgot to water them. Soon, the second flower dropped and withered. "I feel so weak." It whispered before the boy tossed it away. The first and second flower were sad that they were leaving each other, the third flower was also sad. Not long after, a breeze knocked the third flower from the table. Its petals all scattered on the floor, it too was gone. Now, the first flower was all alone. "We wanted more, but forgot to value what we had. The seventh flower was right," it whispered to itself. Back in the garden, the seventh flower still bloomed with gratitude.

POETRY PICKS

तितली रानी

तितली रानी तितली रानी
कितनी प्यारी कितना सयानी!

रंग बिरंगी पंख सजीले !

लाल, गुलाबी, नीले, पीले !

फूल फूल पर जाती हो !

गुनगुन-गुनगुन गाती हो !

कली कली पर मंडराती हो !

मीठा मीठा रस पीकर उड़ जाती हो !

अपने कौमल पंख दिखाती !

सबको उनसे है सहलाती !

तितली रानी तितली रानी

कितनी सुंदर, तितली रानी,

इस बगिया में आना रानी !

तितली रानी तितली रानी

लाल टमाटर

लाल टमाटर , लाल टमाटर

मिचीं बोली सुन लो आकर

मैं पतली - सी हरी - हरी,

ढोंड लगाऊँ खड़ी - खड़ी ।

टमाटर बोला मिचीं रानी,

क्यों इतना इतराती हो,

पतली - सी तुम , कम भी कम हूँ,

क्यों गुस्सा मुझे दिलाती हो ।

मैं बच्चों को प्यार लगाता,

गोल - गोल हूँ सबको भाना ,

तुम तो खूब खलाती हो,

सबको देख पहुँचाती हो ।

DISCOVERY DOTS

Tiger facts

- 1) **Tigers are the largest wild cats in the world.**
Adults can weigh up to 363kg (that's about the same as ten ten year olds!) and measure up to 3.3m!
- 2) **Tigers are carnivores, eating only meat.**
They mainly feed on large mammals such as deer, wild pigs, antelope and buffalo.
- 3) **Tigers are solitary hunters, and generally search for food alone at night.**
They quietly stalk their prey until they are close enough to pounce – then they kill their victim with a bite to the neck or back of the head. Ouch!
- 4) **Tigers are good swimmers!**
Unlike most members of the cat family, they like water and often cool off in pools or streams.
- 5) **A tiger's roar can be heard as far as three kilometers away.**
SO when they want to be heard, you'll know about it, gang!
- 6) **At full speed, tigers can reach up to 65km/h.**
That's right – they may be big and heavy, but tigers are by no means slow movers!
- 7) **These fierce felines have walked the earth for a long time.**
Fossil remains of tigers found in parts of China are believed to be 2 million years old. Yikes!
- 8) **No two tigers have the same stripes.**
Since every tiger has their own pattern on their fur, they are all unique!
- 9) **Today, there are five subspecies of tiger.**
These subspecies are the Bengal tiger, South China tiger, Indochinese tiger, Sumatran tiger and Amur tiger (also known as Siberian tiger). Sadly, three subspecies of tiger have become extinct – the Caspian, Bali and Javan.
- 10) **Less than 100 years ago, tigers could be found throughout Asia.**
Sadly, hunting and habitat loss have put populations at risk, and today their range has been reduced to around 7% of its former size. That's why we need to do all we can to protect these beautiful beasts!
